

**CANADIAN SOCIETY FOR
ORTHOMOLECULAR MEDICINE**

UNDERGRADUATE / GRADUATE STUDENT SCHOLARSHIP APPLICATION FORM

The Canadian Society for Orthomolecular Medicine provides both undergraduate and graduate medical and pharmacy students with opportunities to participate in continuing education programs focused on nutritional biochemistry and the use of non-patentable molecules.

Nutrition in Primary Care: Update and Controversies is a continuing medical education program designed to enhance primary care providers' knowledge of applied nutritional biochemistry and the associated research literature pertaining to several conditions commonly encountered in clinical practice. Various levels of evidence will be presented for evaluation and discussion, in order to facilitate improved communication with patients about health promotion, disease prevention and preferences for treatment.

This Group Learning program has been certified by the College of Family Physicians of Canada for up to 5.75 Mainpro+ credits.

To apply for a scholarship, students must complete this form and return it to: info@ISOM.ca before the program application deadline of Friday, March 29.

Nutrition in Primary Care: Update and Controversies 2019
